Gretchen Loss

Secretary:
Jennifer Brown

Director:
Pedro Espina

Advisory Board:

Hon. Roger Natsuhara
RADM (Ret.) Earl Gay

RADM (Ret.) Arthur Johnson

VADM (Ret.) Scott van Buskirk

The LIFT A VET Hurricane Relief Effort directly supports our veterans, their families, and their communities isolated in Puerto Rico. Our project is providing water purification to veterans from personal “drinking straw” filters, to water bottle filters, and clinic/community filters that can process up to 5,000 gallons with 99.9999% purity capable of removing toxins and waterborne pathogens including bacteria, viruses, and protozoan. This is a faster, more cost-effective, and ecologically superior alternative to disposable water bottles.

In order to support our veterans and their communities, we are seeking financial contributions to reach our goal of \$50,000 or more, to purchase and deliver these systems. We hope that you and/or your organization can help support this project. Your generosity will allow us to provide immediate clean drinking water to veterans in need. We are dedicated to assisting veterans and extend our assistance to the community as well.

LIFT A VET is registered with the Puerto Rico Federal Affairs Administration (PRFAA) in Washington, D.C. to deliver these goods to the island. LIFT A VET is registered and authorized to do business in Puerto Rico. Our Puerto Rico registration number is 369233; EIN: 81-1272342; Maryland ID: D17009093. We can provide certificates for business operation in Maryland and Puerto Rico as well as certificates of good standing for both locations upon request.

Thank you in advance for your support. Together we will continue to provide veterans a better quality of life.

Sincerely,

Raul E. Rosas
Executive Director

Javier Lecha
President of the Board
